

# Club role development record

Taking roles in the club meeting provides you with opportunities to develop speaking, organisational and leadership skills.

When you have developed some confidence with a role you will find you can cement what you have learned by guiding another member and sharing what you've learned. You can arrange this yourself or ask the VPE

You may use this form to help you track your progress

## How to fill this out

**Role understood:** Tick when you feel you understand the purpose of the role, the preparation needed and how to fulfill the role on the night.

**Role taken:** What date did you take the role in the club?

**Role mentor?:** Supporting another member to take on this role is a great way to ensure you understand the role yourself. You may do this as a mentor or simply as support for a newer member in this single role.

Role	Role understood?	Date role taken	Role mentor?
